

Fisheries Credit

Fishing has always existed, as it is one of the ways for humans to acquire food from aquatic life. It is an activity that our ancestors used as a means of subsistence. Little by little, with technological advances and the development of society, fishing techniques have been perfected to what we know today.

Here, those who dedicate themselves to this trade can get the credit that best suits their needs, because Auricoín fully supports this sector, which is so important for human nutrition.

Auricoín grants credits for: Industrial fishing, professional deep-sea fishing, inshore fishing and artisanal fishing. It also covers non-boat artisanal fishing (rope-men, lung-men, shore-men, collectors of stranded seaweed, etc.).

For boat-based shellfish divers, it also includes on-board and off-board artisanal fishermen on the mainland.

WARNING

WARNING

People should keep in mind that when they receive a credit in Auricoín money, whoever receives it can benefit and generate wealth. But do not be fooled, this wealth so longed for by all is not generated by Auricoín money as such, it can only be achieved with work, production, effort and dedication, there is no other way, it is you who through work produce goods and services, because these are the ones that truly have value.

Receiving a credit does not mean that the Auricoín money belongs to you, it is a loan and as such you must have it, and you have the obligation to return it on time, together with the interest that it has generated.

There are two reasons for this.

The first: that the Auricoín money that remains forever in circulation will be the product of your work, and therefore, this money will be classified as good money.

The second is that if you do not return the money you borrowed, this money will harm the whole community, because it will remain in circulation, being inorganic money, and what does this mean, it means that it is bad money, money that was not generated by work, but through fraud or misappropriation.

This cannot be allowed to happen, as it will generate economic aggregates, which will harm the whole community.

NOTE: For the reasons stated above, if you do not agree with this website, the BCA website, the White Paper or the Rules and Regulations, which govern the conduct of the Auricoín Community, which you must read, study and understand. **DO NOT join, DO NOT JOIN this Community.**
