WARNING

WARNING

People should keep in mind that when they receive a credit in Auricoín money, whoever receives it can benefit and generate wealth. But do not be fooled, this wealth so longed for by all is not generated by Auricoín money as such, it can only be achieved with work, production, effort and dedication, there is no other way, it is you who through work produce goods and services, these are the ones that truly have value.

Receiving a credit does not mean that the Auricoín money belongs to you, it is a loan and as such you must have it, and you have the obligation to return it on time, together with the interest that it has generated.

There are two reasons for this.

The first is that the Auricoín money that remains in circulation forever will be the product of your work, and therefore it will be classified as good money.

The second is that if you do not return the money you borrowed, that money will harm the whole community, because it will remain in circulation as inorganic money, and what does this mean, it means that it is bad money, money that was not generated by work, but through fraud or misappropriation.

This cannot be allowed to happen, as it will generate economic aggregates, which will harm the whole community.

NOTE: For the reasons stated above, if you do not agree with this website, the BCA website, the White Paper or the Rules and Regulations, which govern the conduct of the Auricoín Community, which you must read, study and understand. **DO NOT join, DO NOT JOIN this Community.**
